

# Swiss-AS Press Release

## EGYPTAIR MAINTENANCE & ENGINEERING goes for AMOS November 2016

### At a glance

- **EGME to implement the AMOS MRO edition**
- **AMOSmobile chosen to optimise line maintenance processes**
- **More than 2'500 users will work with AMOS**

### EGME to rely on the latest AMOS features

Swiss-AS is delighted to announce the signing of contracts with EGYPTAIR MAINTENANCE & ENGINEERING (EGME) regarding the purchase and implementation of AMOS.

Due to its wide business scope – ranging from line maintenance to engine overhaul, aircraft painting up to D checks and conversions - EGME investigated very carefully and in depth which M&E software could meet its challenging requirements. In the end the functional richness of AMOS and the know-how, methodology and experience of Swiss-AS in realising such complex software projects convinced the MRO provider.

“With EGYPTAIR MAINTENANCE & ENGINEERING we welcome a customer in the AMOS community who will take advantage of the latest AMOS developments. AMOS MRO will cover EGME’s wide range of maintenance services while AMOSmobile will enhance this experience by making the technician’ life more “digital” and therefore easier,” stated Ronald Schaeuffele, CEO of Swiss-AS.

The AMOS MRO edition is currently developed in close co-operation with a large MRO launch customer. In this context the existing functional scope of AMOS is extended to the specific and unique requirements of large MRO providers and contains value-added functions such as a CRM, Facility, Hangar Planning and Financial Project Analysis.

AMOSmobile is a touch-optimised mobile package running on every mobile device. The first module, AMOSmobile/EXEC, is currently completed and tested by a selected number of early-bird customers.

### About EGYPTAIR MAINTENANCE & ENGINEERING (EGME)

EGYPTAIR MAINTENANCE & ENGINEERING is an MRO provider based in Cairo, Egypt, offering its services for commercial aircraft, engines and components. In 2002, EGYPTAIR MAINTENANCE & ENGINEERING was founded as a separate business entity within the EGYPTAIR Holding Co. Besides performing the maintenance of the EGYPTAIR fleet, EGME also offers its wide scope of services to 3<sup>rd</sup> party customers worldwide.

### About Swiss AviationSoftware and AMOS

AMOS is a comprehensive, fully-integrated MRO software solution being developed and distributed by Swiss AviationSoftware. Swiss-AS, a 100% subsidiary of Swiss International Air Lines has more than 140 customers worldwide and belongs to the industry-leading MRO software providers. Our loyal customer base includes pure operators of all sizes, major low-cost, regional and flag carriers, large airline groups and MRO providers. In the Americas and in Asia, AMOS is distributed through a partnership with Lufthansa Systems. For more information, please contact us via [marketing@swiss-as.com](mailto:marketing@swiss-as.com) or visit us at [SWISS-AS.COM](http://SWISS-AS.COM)

**“We are continuously further developing our maintenance processes; it helps saving time and effort and achieving the best results to satisfy our customers. We have been carefully looking for a high quality software which complies with our plans and the variety of our maintenance tasks - and found AMOS as the perfect fit. The implementation is already underway. Our team in EGYPTAIR MAINTENANCE & ENGINEERING is enthusiastic about implementing AMOS in cooperation and coordination with Swiss-AS who are providing full support in this regard,”** said Abo Taleb Tawfik, Chairman & CEO EGYPTAIR MAINTENANCE & ENGINEERING.
